

Interactive Board

This instruction will guide you to use the Interactive Board Game available on the board. Please read the instructions carefully before getting started.

Powering ON/OFF :

- To power on the board, press the ON button at the bottom of the board, then you start playing the game.
- To power off the board, press the OFF button at the bottom of the board.

Game 1 :

- Objective : The board will light up a sequence of LEDs, and you must repeat the same sequence.
- Steps:
 1. Make sure the switch button is on state of Game 1.
 2. The board will light up a sequence of LEDs. Pay attention to that sequence.
 3. When the sequence is finished, it's your turn to repeat the sequence, press the buttons that matches the sequence in the same order.
 4. If you repeated the sequence correctly, you will hear a success sound, and the game will progressively increase the length of the sequence with each successful round.
 5. Otherwise you will hear a fail sound and start again.

Game 2 :

- Objective : The board will show you a random way of lighting up the LEDs with different colors, and after the speaker announces a color, you must match the buttons that correspond to a LED with that color.
- Steps:
 1. Make sure the switch button is on state of Game 2.
 2. The board will light up LEDs with random order and colors for some amount of time (default start with 7 secs and decreases, you can change in parameters).
 3. After the time finishes, listen carefully to the speaker as it will announce a specific color (RED/BLUE/GREEN).
 4. Press the buttons that matches a LED with the announced color.
 5. If you match the colors correctly, you will hear a success sound, the game will progressively decrease the time of showing the LEDs of the sequence with each successful round.
 6. Otherwise you will hear a fail sound and start again.

Notes:

- You can switch between the two games at any time.
- If you want to restart the game, use the switch button to select the same game again.

ENJOY OUR INTERACTIVE BOARD !
